☎ 15716195875

📍 Salt Lake City, UT 84044

SKILLS

Programming: Java, Python,
TypeScript, JavaScript

Frontend: Angular, HTML, CSS,
Bootstrap

Backend: Spring Boot, Node.js,
Express.js

Databases: PostgreSQL, MySQL,
Oracle, SQL

Cloud & DevOps: AWS (RDS, S3, EC2,
Lambda), Jenkins, Docker

Messaging & Distributed Systems:
AWS SQS

Version Control & Tools: GitHub,
ServiceNow, Jira, Trello

Agile Methodologies: Scrum, Kanban

Soft Skills: Problem Solving, Team
Player, Time Management, Self
Motivated, Stakeholder
Collaboration, Strong Work Ethic

EDUCATION

**Washington University of Science
And Technology**
Vienna, VA • 03/2019

Master of Science: Information
Technology
• 3.93 GPA

University of Ilorin
Kwara State, Nigeria • 09/2016

Bachelor of Science: Economics

PROFESSIONAL SUMMARY

Software Engineer with over 2 years of experience in designing, developing, and maintaining scalable web applications. Skilled in Java, Spring Boot, and Angular, with hands-on experience in databases (MySQL, Oracle, AWS DynamoDB), cloud platforms (AWS), and distributed systems. Adept at writing optimized queries, building responsive user interfaces, and collaborating with cross-functional teams. Strong problem-solving skills, ability to manage multiple projects, and a proven track record of delivering high-quality solutions in fast-paced environments.

WEBSITES, PORTFOLIOS, PROFILES

WORK HISTORY

Fidelity Investments - Full Stack Software Engineer
Salt Lake City, UT • 11/2023 - Current

- Develop and maintain scalable web applications using Angular for frontend and Java Spring Boot for APIs, improving user experience with custom components and dependency injection.
- Write efficient and optimized SQL queries in OracleDB and DB2, reducing query execution time and improving database performance.
- Build and deploy applications using Jenkins, Docker, and AWS cloud services, ensuring high availability and seamless CI/CD integration.
- Optimize application performance by identifying and resolving critical issues flagged by SonarCloud, reducing code complexity and improving maintainability.
- Work in a fast-paced Agile environment, collaborating with product owner, designers, and stakeholders to deliver features on time.
- Migrated Java Spring boot application to Micronaut application, improving performance, reducing memory footprint and enhancing Startup time.
- Implemented and monitored a robust pipeline for efficient message processing through batch operations using AWS SQS, Lambda Functions, Splunk and CloudWatch, reducing failures and improving throughput.

Revature - Software Engineer
Remote • 05/2023 - 10/2023

- Built applications using Java Spring boot, Angular and AWS.
- Developed Restful APIs and optimized database queries in MySQL.
- Managed code deployment and integration with Jenkins, ensuring smooth CI/CD pipelines.
- Utilized Agile methodologies to track development progress via Trello and Jira.

CERTIFICATIONS

AWS Certified Cloud Practitioner
(Valid until 2028)
Java, SQL, and Angular from
Hackerrank
Full Stack Coding BootCamp from
NuCamp

McKesson - IT Support Engineer
Atlanta, GA • 08/2022 - 08/2023

- Provided technical support for enterprise applications, troubleshooting hardware, software, and network issues.
- Managed Active Directory user accounts, unlocking accounts, resetting passwords, and resolving security-related issues.
- Resolved Oracle and Snowflake ODBC connection issues, installing drivers and configuring System DSN for database access.

Field Nation - IT Field Technician(Independent Contractor)
Atlanta, GA • 01/2020 - 07/2022

- Provided IT support and troubleshooting services for businesses outsourcing technical tasks.
- Performed software installations, system upgrades, and network troubleshooting.
- Diagnosed and resolved hardware and software errors to minimize downtime.
- Conducted PC refresh projects, including data migration and system configuration.
- Ensured timely completion of tasks while maintaining high client satisfaction.
